

## Digital Stage Box 16

The Mini Stagebox 16 is a 2U chassis with 16 analog mic/line inputs and 8 line outputs for a 16 x 8 matrix. Mini Stagebox units interface with any of the Soundcraft Si Expression, Si Compact, Si Performer, Si Series and Vi Series consoles via an included MADi card fitted to the option card slot.

### MINI STAGEBOX 16 CONNECTING TO SI OR VI1 CONSOLES

- Connections from the console to the Mini Stagebox 16 may vary depending on actual flightcase and breakout panel options.
- For Si1, 2 and 3 consoles, including their 'PLUS' variants, read the Si Option Slot and Option Card User Guide if using more than 1 option card in the console.

Si Performer (Vi1 or other Si series) Console  
with optional MADi card in the extension slot(s).
