

## 75w Strobe

The Anytronics 75w strobe is a very useful strobe for parties, night clubs and stage. They can run together and from their controllers to give stunning effects. Ideal for freeze motion and lightning effects.

| Light and power supply system |           |                  |                           |
|-------------------------------|-----------|------------------|---------------------------|
| Voltage                       | 240V 50Hz | Average lifespan | 500 Hours                 |
| Power                         | 75W       | Dimmer           | 0 - 100%                  |
| Lamp                          | Xenon     | Strobe rate      | 0 - 25 flashes per second |
| Appearance parameters         |           |                  |                           |
| Structure                     | Steel     | Size             | 210 x 190 x 200mm         |
| IP Rate                       | IP20      | Net weight       | 2.75Kg                    |
