

## Ice Box 1500

A large amount of fog floating on the ground can be made by just adding dry-ice or ice. It can be used by it's on-board controller or via DMX. It is a cost effective low fog machine, ideal for that walking on a cloud effect.

### Power supply system and output

Voltage	240V 50Hz	Tank Capacity	2.5 L.
Power	1,500W	Fluid Consumption	6.7min./Ltr
Chilling time	5 min.	Liquid type	Water Base
Output	6,000 cu.ft/min.	DMX Personality	1 channel

### Appearance parameters

Structure	Steel	Size	700 x 350 x 360mm
IP Rate	IP20	Net weight	25.5 Kg (inc liquid)

Channel	DMX Value	Function
1	0 - 5	Off
	6 - 255	Fog output Low > High
