

SUB 182

The OTTO 182 is a horn loaded subwoofer that incorporates dual 18" neodymium woofers that deliver the low end down to 35Hz without compromise. The folded horns enables the enclosure to contain a longer sound path and have been acoustically optimized to achieve high output and low distortion while maintaining clarity and impact. Birch plywood cabinet is equipped with flush handles, steel grille, locating feet, heavy duty wheels and Speakon NL4 connectors.
